KIDDIES GREET SANTA

—Photo by Stand.

SANTA CLAUS FIGURED Edmonton needed warming up Saturday so he put on a big parade on Jasper avenue to Eaton's Edmonton store. Enthusiasm was high as Santa started things rolling at CPR station. Bruce Cornelius figures he's luckiest kid in town. He was right up in Santa's sled with the grand old fellow himself. As parade moved along Jasper, bundled-up tots poured out of car show rooms and stores to cheer old Saint Nick. (Story on Page 3)

Leduc Explosion Inquest Is Adjourned Until Monday

By Barney McKimley

LEDUC, Dec. 2.—The six-man jury sitting on the inquest into the Leduc hotel disaster, Nov. 11, will have the week-end to mull over the sworn testimony—much of it contradictory—given by over a score of witnesses in past four days.

Late yesterday, the probe into the Nov. 11 hotel explosion, and fire that took 10 lives and caused damage estimated at \$250,000, was adjourned until 10 a.m. Monday.

Evidence is expected to be all in and jury ready to file out late Monday to consider the four and a half day's evidence.

An air test of the Leduc gas system would have provided a "safety line" against misadventure, the inquiry court presided over by chief coroner Dr. Max Cantor was told yesterday.

The probe is being conducted by provincial solicitor John Hart of the attorney-general's department, with counsel for the contractors who laid the main, the utility company that held the gas franchise and the hotel owners, cross-examining witnesses.

EXPECTED TEST
Wilson and Wilson foreman Reg Hault said yesterday it was his understanding an air test of the whole gas system would be made before gas was turned into the mains.

Previously, he had admitted a number of installations, including the "T" where the Leduc hotel fire left the main, were not up to specifications.

"There were a number of places not proven," he stated, "I expect (Continued on Page 2)

QUESTIONS ADJUSTED
The incident occurred a short time after Mr. Truman arrived in Philadelphia. He was talking to a reception committee when Philadelphia policemen picked up the two men, standing about 25 feet from the president's private car.

The two were taken to a detention room in Municipal Stadium, where the Army-Navy game is being played. It was not established at once whether the men were speaking in jest, or actually wished harm to the president.

2 Arrested Near Truman

PHILADELPHIA, Dec. 2.—(UP)—Two men have been arrested by Philadelphia police near President Truman's special train after he was overheard to remark: "If I had a gun now I could bang him off."

The incident occurred a short time after Mr. Truman arrived in Philadelphia. He was talking to a reception committee when Philadelphia policemen picked up the two men, standing about 25 feet from the president's private car.

The two were taken to a detention room in Municipal Stadium, where the Army-Navy game is being played. It was not established at once whether the men were speaking in jest, or actually wished harm to the president.

NAMED BY ONE witness as man who said valves were closed on the morning of the Leduc hotel explosion, Fred Tokarek, sub-foreman with contractors who laid mains for Leduc gas system, told inquest jury he was home morning of Nov. 11, could not have answered questions, was not present when W. Gray, chief engineer for Leduc Utilities Ltd., turned gas into town mains. His wife, leaving inquest with him, supported his story.

Benefits in Gas Export Are Cited

Advantages Under Plan Are Listed By Hon. N.E. Tanner

First public announcement that he believes certain advantages to Alberta would result from export of natural gas was made last night by provincial mines minister Hon. N. E. Tanner.

Addressing the final meeting of the Alberta Social Credit League convention at the Masonic Temple here, Mr. Tanner stressed that he was making a personal opinion only.

No decision in regard to gas export has been reached by the government, nor will a decision be made until recommendations are received from the Alberta Petroleum and Natural Gas Conservation board, he said.

But the minister said, in the event that a surplus of natural gas is found to exist in Alberta, certain benefits would result from its export.

OUTLET NEEDED
Some fields in Alberta, such as Leduc and Pincher Creek, require large quantities of natural gas to be produced in order to raise oil deposits to the surface, the minister explained.

"In order to produce economically an oil field such as Pincher Creek, an export outlet must be provided for at least part of the natural gas produced with the oil," he said.

Since large quantities of natural gas were used in the winter time by domestic and commercial users in Alberta and very little in the summer time, it might be possible to work out a system of supplying export outlets by alternating gas fields as supply points.

EFFECT ON INDUSTRY
Surplus of natural gas produced (Continued on Page 2)

'Warmer' Air Not So Warm

Edmonton's "warmer" weekend won't be so warm after all.

The disappearance of a cold air mass in the Yukon yesterday was to cause slightly warmer temperatures in most sections of the province today and tomorrow, but temperatures did not increase as much as expected.

In Edmonton today, the high will be zero, only three degrees higher than yesterday's high.

Forecast is sunny and cold with light winds.

Tomorrow, after dropping off to about 20 below tonight, temperature will again rise to the zero mark in Edmonton.

Low in the city last night was 20 below.

Cross Canada temperature readings yesterday follow:

Edmonton -18 21
Calgary -18 21
Winnipeg -18 21
Toronto -18 21
Montreal -18 21
Ottawa -18 21
Halifax -18 21

Influx of Reds For Vote Denied

TORONTO, Dec. 2.—(CP)—Alderman Norman Freed, a Communist member of Toronto city council, yesterday described as unfounded a report that Communist agitators have been brought to Toronto from northern Ontario to bolster the party's vote in Monday's Toronto civic election. The report of the influx came Wednesday from Sergeant Dan Mann, chief of the city police anti-subversive squad.

NON-ESSENTIAL STEEL SALE TO BE BANNED

OTTAWA, Dec. 2.—(CP)—Trade Minister Howe today announced a ban on the sale of primary steel for non-essential construction starting Monday, Jan. 1.

The ban includes steel for the building of all varieties of entertainment and amusement centres, liquor, tobacco, carbonated beverages, confectionery factories, warehouses and stores and outdoor advertising signs. The order does not include bakeries or housing.

Construction now in progress will be allowed enough steel to complete programs.

Hope Dim As Mine Rescue Workers Toil

COLEMAN, Alta., Dec. 2.—(UP)—Rescue workers today pushed through debris towards the mine where two miners were trapped by a cave-in Thursday, although there was practically no hope the men were alive.

S. C. Short, secretary-treasurer of the Metallurgical union, said early today, "We don't think there's much chance of the two men being alive, but the men are continuing to dig until they reach the place where the miners were at work."

"You never can tell what has happened to them," he added.

The missing men were Joseph Sikora, 24, and George Reap, 46, both of Coleman.

Twenty rescue workers had been trying ever since to reach them. Mine officials said after the men had been trapped 12 hours that "little hope is held for getting the men out alive. Rescue work is being carried on continuously."

Some cave-ins believed to have been caused by underground stress which sent tons of rock and coal crashing down from the roof of the mine tunnel.

Attlee Will Visit Canada

LONDON, Dec. 2.—(Reuters)—Prime Minister Attlee will visit Ottawa on his way home from talks with President Truman in Washington.

Timing of his visit to Prime Minister St. Laurent will depend on when the Christmas holidays take start. This is not yet known.

Attlee will leave London by ship on Dec. 30 (2:30 p.m. MST) tomorrow.

French Premier Flies To London Conference

LONDON, Dec. 2.—(AP)—Premier Rene Plevin of France arrived here today to confer with Prime Minister Attlee on world problems which the British leader will take up with President Truman next week.

Plevin, accompanied by his foreign minister, Robert Schuman, landed at Northolt airport. They were to confer with Attlee and Foreign Secretary Bevin at 10 Downing Street.

Attlee hoped to receive the latest French impressions on the Korean crisis and the involvement of Communist China in the conflict, before taking off for the United States tomorrow for conferences with President Truman.

WINS VOY
The French premier came to the conference with a strong parliamentary vote of confidence in his own parliament behind him.

Plevin's cabinet won endorsement from the National Assembly last night by a thumping 347-164 vote. This is an unusually large majority for the current assembly.

Only the Communists and a few extreme leftists sometimes stand or fall by a few votes.

Only the Communists and a few extreme leftists sometimes stand or fall by a few votes.

3,000 Hit By Floods At Calgary

Level of Bow Down One Foot By Mid-Morning

CALGARY, Dec. 2.—(CP)—Three thousand persons were either marooned or forced to leave their homes last night as the Bow River swept over its banks in the most disastrous winter flood in Calgary's history.

Twenty-three city blocks were inundated and damage was estimated at thousands of dollars.

Rampaging waters of the Bow River, backed up by an ice jam caused through streets and avenues on both sides of the river.

WARNINGS IN VAIN
Despite flood warnings for the past several days and constant patrols by police in the threatened area, the river rose so swiftly that few persons had a chance to flee from their homes before the rising current swept around buildings.

By mid-morning the water had dropped a foot. At its peak, the water was four feet deep in some low-lying areas.

A survey of the area indicated that approximately 450 dwellings, four apartment blocks containing 71 suites, the Cecil Hotel and some 40 business premises were in the flooded area.

WORKERS HAMPERED
In early stages both policemen and firemen were hampered by lack of hip waders but a road apple brought scores of citizens to police headquarters with necessary equipment.

An appeal was also made for boats and approximately 10 were delivered, but crews had extreme difficulty in the swift water.

Several times crews were almost swept away before additional volunteers jumped into icy water and assisted in pulling them to dry land.

Many police officers and firemen were frozen whose feet were chilled when icy waters flooded into their waders filled the boots with hot water to keep their feet warm.

Open Charge Made By Gen. MacArthur

By Earnest Holmbeck
Exclusive to The Bulletin

TOKYO, Dec. 2.—(UP)—Gen. Douglas MacArthur accused Communist China today of launching an undeclared war against the United Nations in Korea, but said he still hopes for a peaceful negotiated settlement.

He said overwhelmingly outnumbered United Nations forces in Korea now face well-equipped Red armies totaling more than 600,000 men—350,000 of them Chinese and 100,000 to 150,000 North Koreans being reorganized and rebuilt by the Chinese.

But, he said, he never has recommended or asked for authority to bomb Chinese territory north of the Yalu river frontier nor has he asked for authority to use the atomic bomb.

MacArthur reviewed problems posed by China's intervention in Korea in a statement of "categorical answers" to questions submitted by the press. It was in question and answer form.

Asked flatly if he hoped the Korean problem can be settled by negotiation, MacArthur said: "I sincerely hope so. Settlement of international issues by peaceful rather than military means is always to be desired."

SILENT ON FUTURE
He declined to speculate about what might happen next in Korea.

Highlights included:
1. "A state of undeclared war between the Chinese Communists and the United Nations forces now exists."

2. Allied forces are "due" to the over-extended strength of the enemy, who completely outnumber us on the ground."

3. He knew of no way in which the reverses could be avoided "under the conditions which existed."

4. The only other recourse to launching the ill-fated Allied offensive Nov. 24 had been to "rescue ourselves" by the possibility of a devastating strike in such power as to completely destroy the "Allied Air Army."

AUTHORITY OBEYED
5. The military command never has exceeded its authority, but on the contrary "acted in complete harmony and co-ordination with the Soviet charges that Japanese troops are being used by the UN forces."

6. The Allies held nearly 145,000 Communist prisoners, but fewer than 300 of them are Chinese.

7. He hoped for settlement of the Korean problem by negotiation.

FORCE DIVIDED
He said today that the 500,000 Chinese troops already committed in Korea were divided into two great echelons—one on the western front and the other on the eastern.

MacArthur's estimate of enemy strength was nearly twice any previous official estimate.

MacArthur himself said early today that 200,000 Chinese were attacking in the northwest.

Later Maj. Gen. Edward M. Almond, commander of the 10th U.S. Corps, said to 10 Chinese divisions, totaling perhaps 100,000 men, were massed in the north east.

Earlier estimates of remaining North Korean strength were only 30,000.

MacArthur retorted that North Korean forces had been destroyed and the UN command's mission "practically fulfilled when this aggression was launched."

"This, in my opinion, is a new war with a new opponent and a new army," he said.

One woman, rescued clinging to an overturned lifeboat, said the others crowded into another lifeboat.

When Beebe came back, his cabin was splattered with blood and had a trail of scarlet trees shore of branches led to the river's edge.

Tracks in the mud indicated the end of the story.

When the breaking waves next spring, Beebe will try to salvage his story.

China Forces Drive Near Red Capital

TOKYO, Dec. 2.—(AP)—Chinese forces surged southward tonight in an enveloping Red tide on the approaches to Pyongyang.

One Red manpower mass was reported within 25 miles of the Korean threatened city.

It is the only capital that ever had been liberated from Communism.

Pyeongyang was the Red Korean government seat until it was taken over by United Nations forces Oct. 20.

A spokesman said the United States Eighth Army, trying desperately to hold a defense line 30 miles to the north, "will not withdraw from its position or from anywhere until forced to do so by enemy action."

He said he was sure the army will destroy forces of military value to the enemy.

RED LEAFLETS
"This military policy will apply if it becomes necessary to evacuate Pyongyang."

Outside the city of 300,000 population, Communist leaflets appeared proclaiming, "You shall be free from the enemy soon."

Koreans in Pyongyang were exhorted to "break down transportation and communications systems, the trains and warehouses . . ."

Korean allied sympathizers warned that a fifth column had infiltrated Pyongyang. Red controls were set up at the city gates.

Poetrical Chinese columns from a 300,000-man force thronged into the Korean campaign were rolling southward in a thrust at the Allied defense line.

Red vanguards had thrust into Sogwon but American foot troops were fighting desperately to capture the town and shore it up as the eastern advance to the new defense line.

20 Men Missing As Ship Sinks

STOCKHOLM, Dec. 2.—(AP)—The 196-ton Italian steamship L.P. Bulb sank off Sweden's coast last night, and 20 of her crew are missing.

One woman, rescued clinging to an overturned lifeboat, said the others crowded into another lifeboat.

When Beebe came back, his cabin was splattered with blood and had a trail of scarlet trees shore of branches led to the river's edge.

Tracks in the mud indicated the end of the story.

Provinces Confer Monday at Ottawa

Marks First Full Dress Conference In Five Years

OTTAWA, Dec. 2.—(CP)—A general federal-provincial conference, first of its kind in five years, will open Monday in the Commons Chamber in the Parliament buildings.

Heads of Canada's 11 governments, many of them cabinet ministers, and a retinue of officials and advisers will attend, Prime Minister St. Laurent will act as chairman.

For the last few months Mr. St. Laurent has been exchanging correspondence with the provincial premiers. He has been suggesting matters they would like to see on the agenda. Some of the correspondence was made public during the session of Parliament last Spring.

Later exchanges are expected to be made public during the week-end. These are expected to give a better overall idea of the topics that will come up for discussion.

The conference was called mainly to discuss renewal of federal-provincial tax agreements and to study the possibility of extending social security services.

MORE SCOPE ASKED

In the earlier correspondence of the provinces suggested that the conference deal as well with such things as unemployment for unemployed persons, with federal aid to education, with a federal investment program and with clarification of the provincial powers of taxation.

One knows how long the conference will last, but some officials believe it may continue a week. Then some officials might be referred to continuing committees.

The conference is to be followed by the third provincial session of the federal-provincial constitutional conference, which will open in Ottawa since last January to find a suitable formula for making all constitutional amendments require approval by reference to the United Kingdom Parliament.

CONDITIONS CHANGE

The general conference will meet under conditions vastly different from those in 1945 when the federal and provincial governments met together to discuss fiscal and social security problems. That conference ended in failure.

The 1945 conference was called at a time when a serious post-war depression was expected. The federal government placed before the provinces a detailed program which it believed would help the country to ease the shock of a major recession.

It asked the provinces to remain out of the tax field of personal income, corporate and estate taxes. In return, they would receive federal grants based on population and the value of national production.

If the provinces accepted the taxation agreements, the federal government undertook to pay the bulk share of a national health insurance program, to provide old age pensions for 70 to 75, to share the cost of pensions to the needy between 65 and 69, and to share the cost of public projects designed to stimulate employment.

CRITICISMS

Overall agreement was not found possible. Some of the provinces said the federal government was too rigid in its proposals and was unwilling to accept provincial suggestions.

When overall agreement was not possible, the federal government began negotiating with the provinces individually. All provinces except Ontario and Quebec signed agreements. Newfoundland entered Confederation last year and signed an agreement early this year.

The agreements are due to expire March 31, 1962. If they are not renewed, plans will have to be made for the provinces to re-enter the major taxation fields.

Kinsmen Give Radios to Kiddies

Members of the Kinsmen Club here last night agreed upon the presentation of 10 radio radios to the Camell hospital for the use of child patients.

The presentation, which will take place at the club at Christmas time, will be made at the annual Kinsmen-organized Christmas party.

Military Parade

Ninety-ninth Alberta Armoured Car Regiment will parade at 8 p.m. Monday at the Regina Armouries. Troop will parade at Coughton Armouries 7:45 p.m. the same night.

When sleeping, woodpeckers hang head down by their claws.

Inquest Adjourns Until Monday

(Continued from Page 1) ed the air test to provide a safety line.

Rault said he had not been specifically told the test would be an air test, but he "assumed" it.

Rault's story came after Imperial Oil Ltd. research engineer J. W. Young had testified in his opinion the Leduc Hotel was destroyed by explosion of natural gas.

He said the gas could have been admitted to the hotel because there was no valve at the line from the main to the hotel and no plug cap on the open pipe into the hotel.

Most of 4,000 cubic feet of gas admitted into the main Nov. 11 would have escaped through the hotel pipe and another open two-inch pipe in the town, Young stated.

Benefits of Gas Export Cited

(Continued from Page 1) during oil production in wet gas fields such as Pincher Creek and Leduc might be used to supply export markets during the summer months, he said.

The minister also discussed the advantage of gas export in relation to new industries likely to be established here.

"To permit economical production of natural gas to supply industry, it is necessary that we would have to permit some fields an export market for the surplus of natural gas they produce," he said.

MIGHT HALT INDUSTRY

Unless an export market was provided for these surpluses, production of gas for local industries might not be sufficiently economical to warrant establishment of certain new industries in Alberta.

The mines minister also told delegates the convention that the network of pipelines which would be required in gathering gas for an export system could be called upon to supply some areas of Alberta now without gas.

"If the gas is not sold, it is a hamster to which it would not be economical to deliver gas under present circumstances might reasonably be served from gas lines passing through the area to export."

The minister stressed that if export of natural gas is approved by the government, Canadian oil will receive first priority on the supplies.

Control Tire Sales

OTTAWA, Dec. 2.—(Reuters)—The Argentine government has decided to control tire sales to counter a rubber famine. Anyone buying a new tire will have to produce an old one, the ministry of industry announced yesterday.

Vets to Get Boost in Pay

OTTAWA, Dec. 2.—(CP)—The army is going to recognize with a pay boost—the experience of Second World War soldiers who have gone back into uniform with Canada's Special Brigade.

Headquarters announced last night that the army will upgrade the veteran in the Second World War Special Force.

He will be graded as a private first class, if in the opinion of his commanding officer, he has reached a standard of training and military knowledge equivalent to that of a soldier who has completed 12 months' service as a private in the force.

He'll get the extra money that goes with the boost—\$75 a month as compared with \$68 for the new recruit.

A good percentage of the men in the Special Brigade are Second World War veterans.

From the flow in the Devon transmission line, Young said.

It crept audibly into the base, being turned on and evidence "pushing a cloud of dust with it," in the words of a witness to the mounting that the vital valve was being turned.

Wilson said it was the first time he had heard of the valve being notified in such a manner.

Contractor foreman Rault said he had never had any word that Gray was turning on the gas.

Wilson told the court of going to the regulating station "not in the opinion of the gas would be let into the town" and of being told by Gray to "Get out, this may be dangerous."

Gray came a little later to the door of the station and said the valve was going to No. 1 valve, Wilson testified.

He said he thought at the time Gray must know what he is doing, and did not reflect on the fact he had told Tokarek to locate the main valve but not to turn it on.

AUTORIZED WELDING

Unsuccessful effort to get a cap on the pipe into the Leduc Hotel was described by foreman Rault. He said when he called in the job he authorized the welder to weld a cap over the "T" at the main and to cut into the main, he stated.

The set-up built "not to specifications but to materials" made the Leduc Hotel installation unique. Among other things, it could not be air-tested unless the whole system was air tested, Rault said.

A puff explosion, not a real detonation, destroyed the hotel. Imperial Oil research man Young told the jury when he enlarged on the explosion cause and effect in his report.

The report described a moment when the 20,000 cubic feet of the Leduc Hotel basement was filled with a deadly concentration of natural gas.

The gas was the bigger part of the 4,000 cubic feet introduced into the system a few minutes earlier.

Three Men Are Injured When Car Hits Pole

One man required 75 stitches to facial injuries and two other persons were hurt when a passenger car went out of control and crashed into a pole at 105 avenue and 30th street, last yesterday.

The badly cut man was Howard Clark, 1900-94 street.

The others were Robert Emmelman, 973-84 avenue, and Wm. Edwards, 808-06 avenue. Hospital authorities said Edwards also required extensive facial lacerations.

Edwards was taken to Royal Alexandra Hospital in city ambulance at 11 p.m. yesterday.

Composer Dies

DUBLIN, Dec. 2.—(Reuters)—Composer Ernest John MacDermott, 65, died last night at Kilmaree, County Kerry. His work included chamber music, orchestral and church pieces, and film scores.

He said he had crossed one set of tracks at the intersection when his car went out of control and crashed into a heavy wooden pole between the two sets of tracks and at the side of the road.

He told police he was travelling at 30 miles per hour when the accident occurred.

Ole Santa Claus Arrives at Eaton's

Sub-Zero Temperatures Braved As Hundreds Out for Parade

By Jack DeLong
Santa Claus warmed things up for hundreds of pop-eyed Edmonton kiddies.

It was the occasion of the annual parade of old Santa to Eaton's Edmonton store.
The jolly old fellow had a colorful retinue in the big parade, starting from 10th street east on Jasper and north to the store.

There were Indians with head-dresses, colorful scarves on horseback and foot, sweet little Snow White and her ever-popular Seven Dwarfs, Mother Goose, Little Miss Muffet, replete with tuffed and scores of other fairy-tale figures. From both the human and animal worlds.

The RCMP band led the big parade and filled the frosty Christmas air with proud marching songs.

COLORFUL SHOW
Back at the rear was old Santa himself, his long white whiskers sparkling with frost.

He was seated in his sleigh and riding herd on his famed six tiny reindeer from the North Pole regions.
The kiddies forgot the cold to yell for the grand old fellow.

It was a mighty colorful parade and certainly warmed things up for everybody.
Santa will be on duty in Eaton's toyland all day Monday.

FLUTE, PIANO FEATURED AT ARTS MUSEUM

A program of flute and piano music will be presented at this Sunday's musicals at Edmonton Museum of Arts at 2:45 p.m.

Harlan Green, flautist, will be accompanied at the piano by Neida Faulkner, recently returned from study in Montreal. Tea will be served at 4 p.m. following the concert.

The public is invited to attend by chairman B. L. Hutchison, hostess Mrs. C. O. Hutchison and Mrs. E. S. Brett and conveners Mrs. C. P. Tebb and Mrs. Hector McLean.

NO, THESE NORTH STARS haven't plunged through a couple of apartment blocks. They are merely undergoing maintenance work in newly-built "nose-hangers" at McChord air force base, near Tacoma, Washington, where the RCAF's 428 Thunderbird Squadron is based.

Mate Describes Heroism Of Trainman After Collision

The heroic but futile attempt of trainman Allen Benwood, of Calder, to save two youths trapped in the flaming wreckage of a truck which his train had just collided, late Thursday, was told today.

Safeflowers Draw Blank

Safeflowers failed to crack open an office safe in one of three break-ins reported to city police last night.

Attempts failed to punch open the safe at Mills Motors, 109 street and Jasper, in what police described as an "amateur job."

The dial was knocked off, the top of the door hinges and spindle were damaged.
The entry was gained by smashing a rear window. The till and all drawers were ransacked but no money located.

Cigarettes valued at \$50 were looted from the Spruce Meat and Grocery, 1137 35 street early Friday. Entry was made by smashing a rear door window and forcing a padlock inside. The store was ransacked.

A 1938 sedan undergoing repairs was stolen from the Alberta Safety Service Limited, 505 111 avenue. A radio, pen, clock and a typewriter were also taken by the thieves who gained entrance through a side window.

Abandoned Ship Located by Tug; On Way to Port

HALIFAX, Dec. 2.—(CP)—The sun-wrecked British tanker, Esso Rochester, has been found by the tug Claire Simard and is being towed to port, marine radio reported today.

The 43-man crew of the 11,000-ton vessel abandoned ship early Thursday after gales inflicted heavy damage forward of the bridge. There were no casualties and the crew was taken to Quebec by the Montreal tanker Maru.

Marine radio said the Simard, believed to be from Sorel, Que., sighted the stricken craft 40 miles southwest of Seven Islands, in the Gulf of St. Lawrence, and is towing her to the islands.

AMA Luncheon

A luncheon meeting of the board of directors of the Edmonton branch, Alberta Motor Association, will be held in the AMA Board Room, 10130-99 street, at noon, Dec. 5.

Meeting Called

A meeting of the Edmonton branch of the Catty Sark club will be held in the rear room of the Army and Navy clubrooms Tuesday at 8 p.m.

MANY THANKS

Once again we have come to the end of our fiscal year. At this time we wish to extend our thanks to the many customers we have been privileged to serve in the past 12 months and look forward to your continued patronage in the coming year. Again "Many Thanks."

Muttart's will introduce many new products for builders in 1951—Watch our ads for special announcements.

HURD HEADS FRESHMEN AT VARSITY

W. A. Hurd was elected president of the University of Alberta Students' Union freshmen group yesterday.

Two of the new officers were elected by acclamation at a meeting held prior to the election. They are Helen Steeves, vice-president, and Betty Secker, secretary-treasurer.

Other officers named in yesterday's balloting: Geraldine Aplund, Ken Stewart and Robin Williams, executive members.

Indian Schools May Get New Inspector Soon

An Inspector of Indian schools for Alberta may be appointed soon. Appointment is presently being considered by the federal government, according to the Dominion Indian Affairs Branch in Edmonton.

Col. B. F. Neary, Ottawa, superintendent of education for the branch, is on a tour of inspection of Indian schools in Edmonton and Northern Alberta.

Col. Neary, who arrived yesterday from Vancouver, visited Whitecourt and St. Paul Indian residential schools during the afternoon.

The wings of large birds, when landing, work in much the same manner as the revolving blades of a helicopter.

Leaving Town!

Must sell 1949-50 Buick Wildcat 1949 white sedan. Extra large living room and bedroom, dining room, kitchen and bath. Bedroom and den upstairs, nicely finished in attractive pine wood. House completely decorated. Front of driveway, lot is landscaped, with fountain wall and side drive. Full price \$12,500. Some terms. To see home, write BOX 86 BULLETIN

Police Specialize In Mending Broken Hearts

MONTREAL — (BUP)—Earl E. McClintock offered proof today "CID" means "cooper in disguise."

He said he gets \$10 a year from the city to cover the costs of making like a hobo, lumberjack, gypsy or American tourist to make it easier to catch crooks.

McClintock, a policeman for 14 years, gets the special allowance along with regular pay as a special duty constable. He is one of about 100 veteran cops who spend their time handling cases that don't

favorite, to check on garages suspected of harboring stolen cars.

FAMILY TROUBLES

He also helps solve family troubles but swore he'd never had occasion to make up like Dorothy Dix.

"Often regular policemen on patrol are in a hurry," he said. "They can't spend too much time dealing with such cases so they're turned over to us. We do our best to patch up broken hearts and we try to show people the brighter side."

A case in point came the other day when a woman called police to complain her boy friend was threatening to kill her and his mechanic. He uses that one, his started warming up by heav-

stems through her bedroom window.

McClintock and his partner were called in. They arrived by streetcar because they shun easily identified police cars and sirens and stood by as her special bodyguards for two days until he cooled off the usually unpublicized officers said.

"Then," McClintock said, "we took the boyfriend down to the station and gave him a good fatherly talking to and sent him on his way."

Birdseed, or morning glory, first me to America more than 100 years ago in cereal grains from Europe and Asia.

Spain Halts Foreign Sales Of Mercury

MADRID—(UP)—Spanish mercury producers, among the world's largest, are limiting current sales to small shipments in view of the international situation.

The "wait and see" action is based on a belief by producers that world prices for mercury may rise even farther if the tense international situation continues.

Before the outbreak of the Korean war the New York market price was \$70 per flask. Today it is around \$86 a flask.

In the hope of an even greater rise, Spanish producers have clamped down on large shipments, limiting current sales to lots of 100 flasks or less.

Even those sales are being made on a current market basis, pending the levelling off of the world market.

Spain's Almaden and Arrayanes mines, by far the richest mercury mines in the world, are said to produce roughly one-third of the world's production.

The Andaman and Nicobar Islands are the chief groups among numerous lies in the Bay of Bengal.

EDMONTON BULLETIN, Saturday, Dec. 2, 1950

Plague is a rat-borne disease and can be traced through history as far back as 1300 B.C., being first known in Pelusium, in lower Egypt.

The desert in Big Bend National Park in Texas once boasted of Indian marauders before the Civil War.

THE MESSAGE

THE BRAVE NEW WORLD

Today we are wondering what has happened to the world of our dreams. The brave new world which we were to possess "after the war." All our dreams of peace and plenty lie shattered and a strange uneasiness possesses our minds as we listen to the news from our radios in these strange days in which we live.

We wonder what has happened and we are resentful because we cannot have peace without effort and plenty without toil. We seem to be surprised that men and nations should pay no heed to pledged word or bond and that treaties are broken without respect to either honor or justice.

For years we looked forward to a new world, true we each had our own idea of what that world would be like, but somehow it was going to be a great improvement over the world we had known.

But where in those days we had no need of mention of a return to God, to truth, to honor or to justice. It had been and continues to be a prevalent notion that man, somehow, can raise himself by his own bootstraps to something higher and better.

There is little mention made of any desired improvement in the moral state of man, all our attention seems to be focussed on man's physical and mental needs.

More education, less work and more pay seems to be the sole end of our ambition for the new world and in order to bring this about, all we have to do is to call on some mysterious being called "THE STATE" which in some miraculous way will act as wet nurses to all mankind going to each all that he can need without effort and without responsibility.

Here lies the great danger, in just such thinking all geared to the physical need of men and forgetting that he has a soul, forgetting that there is a God to whom man is responsible.

We have forgotten that every improvement in the condition of mankind must spring from the initial fact that he recognizes that he is a sinner and that he turns from his sin to the forgiving grace of God.

Then, and only then the improvement arises from within himself. Jesus spoke of things that are eternal and vital for time and eternity. Sin and forgiveness, death and enduring life, but we brush all that aside in our eager search for an easier life and the fulfillment of our rosy dreams.

The task of the church in the building of 'The Brave New World' is surely this to seek to free men from the bondage of self-interest and to give them a new and vigorous faith in the over-riding purpose of God and to help to bring them to a penitent acceptance of His word as the Way, the Truth and the Life, not only for the individual here and there, but for society as a whole, for Canada and the world. This is the only way.

Because the thought of many Christians on this issue of community life is no more Christian than that of many who view these issues from a purely secular standpoint, but there is little use of the church becoming the extent to which the modern world has become paganized, if within ourselves there is no true, binding and effective allegiance to the ideal of the Kingdom of God.

A half-hearted Christianity will never save the world. Today we find ourselves in the great battle "against principalities, against powers, against the rulers of the darkness of this world, against spiritual wickedness in high places." Choose ye this day whom ye will serve."

"What think ye of Christ, Friend?" when all's done and said.
Like you this Christianity or not
It may be false, but tell you with it true?
Has it your vote to be so if it can?
COME TO CHURCH ON SUNDAY

PIONEER MISSIONARY TO APPEAR AT BEULAH

Rev. H. A. Jackson, pioneer missionary in French Indo-China since 1950, will conduct the cinema services in the annual missionary convention at Beulah Tabernacle, 107 Avenue and 96 street tomorrow at 11:30 a.m. and 7:30 p.m. Mr. Jackson is now in Vietnam supervising the work of the Dalat Hill Station and Home for Missionary Children. After presenting his up-to-date reports on latest developments in missionary opportunities and needs in Southeast Asia, Mr. Jackson will return by plane to his field of service with the Christian and Missionary Alliance in French Indo-China. Edmonton friends of missionary enterprise are invited to hear this missionary visitor who has come so recently from the core of world interest in Asia.

Colporteur Story Recounted In Film

By Helen Ferris

A revelation is in store for Edmontonians early in the New Year when the Rev. E. J. Heuer, district secretary of the North Alberta Auxiliary, British and Foreign Bible Society, publicly exhibits his film entitled "Frontiersmen."

The half-hour film, shown at a recent meeting of the board of directors, North Auxiliary to the Bible Society, depicts experiences of colporteurs—the consecrated "frontiersmen"—who sacrifice homelife and family life, taking on the life of a missionary, and going into remote communities of Western Canada by a personal door to door canvass.

As the story unfolds in magnificent scenery, we learn that the colporteur's efforts are rewarded when he can talk doors of new Canadians in their native week in all kinds of weather.

and help them to learn the language of their adopted country through the Scriptures. Not less rewarding are the efforts of the "marine colporteur" who, by sharing the cost of food and shipboard duties on missionary boats, sails many miles a year along the perilous coast of Vancouver Island, reaching hundreds of otherwise inaccessible spots such as islands, fishing villages and lighthouses. The "waterfront colporteur" is also shown, boarding some of the 1,000 foreign ships that call at the British Columbia ports in the course of a year. He tries to interest the longshoremen and stevedores in the Bible, and makes many valuable contacts in this way. But perhaps most challenging of all is the work of the colporteur who takes the scriptures into the slums. Here "God's packman" frays the streets and knolls on the sidewalks in their native week in all kinds of weather.

DESPITE SEVERE DAMAGE to his church, Korean Methodist minister holds regular services in roofless building at Womans, Korea. With church's furniture completely destroyed, worshippers must stand throughout service. Church may come under fire again if Communists advance continues unchecked.

More Competition

PARIS, Dec. 2.—(Reuters)—The Paris post office today went into competition with the city's newspapers by announcing that it is resuming its pre-war service of news bulletins by telephone. For the price of 15 francs (four cents) subscribers dialing the letter INF will hear a resume of the day's general and sporting news, including race results.

Cheese Contract With Britain Nears Closing

OTTAWA, Dec. 2.—(CP)—Sir Andrew Jones, head of the British Food Mission in Canada, disclosed last night that the United Kingdom is prepared to buy 77,000 tons of Canadian cheese in 1951.

The price still is to be determined, he said in an announcement before the closing session of the

two-day Federal-Provincial agricultural conference.

The 1950 price to the Canadian cheese producer was 26 cents a pound—made up of a sale price to Britain of 25 cents, plus a three-cent Canadian government subsidy.

The 1950 contract also was for 77,000 tons.

In the 1951, birds are mentioned 200 times; 17 of these references are to definite kinds.

High-Powered Mystery Starting at Empress

William Holden, Nancy Olson and Barry Fitzgerald share equal screen honors in Paramount's high-powered mystery drama, "Union Station," which opens today at the Empress.

QUADS BORN TO JERSEY COW

JACKSONVILLE, Tex., Dec. 2.—(AP)—It's quads on the Oate Baker farm in Anderson County. The mother is Baker's Jersey cow. The two heifers and two bulls were born Wednesday. All are normal, healthy animals. Last year, the cow gave birth to twins.

Group Marks 'Birthdays' At Banquet

There will be a definite French flavor at the Trocadero Sunday night.

Over 300 local French-Canadians are expected to attend a banquet and dance marking the twenty-fifth anniversary of the French-Canadian Association in Alberta, and the first anniversary of the French section CHFA.

Dr. L. P. Monseigneur, M.P., provincial president of the ACFA, will chair the event, which will get underway at 6:30 p.m. Several distinguished guests will be seated at the head table. His Excellency, Bishop M. Baudouin, St. Paul, A. Gallant, manager CHFA, L. Berland, M.P., ACFA delegate from Quebec, L. Breyer, delegate from St. Louis, A. Deschamps, Edmonton; J. W. Beaudry, M.A., St. Paul; M. O. Beauchemin, M.P., past president of the association and J. M. Fontaine, president of the Edmonton branch.

Other guests will be Justice C. E. Giesey, Monseigneur S. Lacombe, St. Paul, J. Maron, Montreal, and Bishop J. L. Coudert, Whitehorse.

In conjunction with the anniversary solemn mass will be celebrated in St. Joachim church at 11 a.m. Sunday morning.

Increase Seen By Collector

Percentage of owner-occupied single family dwellings in Edmonton has increased slightly in the past year.

Total number of single family dwellings has increased 2,731, from 26,773 at June 30, 1949, to 29,504 at June 30 this year.

Last year the number of owner-occupied single family units was 19,483, or 72.69 per cent.

This year it has risen to 21,541, or 73.01 per cent, an increase of 2.32 per cent.

These figures are contained in an analysis of June 30 census figures released today by City Assessor and Tax Collector J. A. MacDonald.

Total number of dwellings of all types at June 30 was 31,499, containing 28,576 separate dwelling units. These figures include only permanent separate units. "Buildings which do not contain complete separate units are listed as single family dwellings, irrespective of number of families that may be temporarily occupying them," said Mr. MacDonald.

Apartment buildings total 650, with 5,926 units in them.

"Temporary dwellings" are listed at 445, with 1,062 units in them.

New Addresses For Soldiers Are Announced

OTTAWA, Dec. 2.—(CP)—New postal addresses for Canadian Army Special Force personnel and other Canadian troops assigned to the Far East, were issued today by post office and military authorities.

Effective immediately, all mail intended for personnel of the 2nd Battalion, Princess Patricia's Canadian Light Infantry, now en route to Korea, should be addressed "with the number, rank, and name of the soldier, the name of his unit and next to CAGO 5002, care of the Postmaster, Vancouver."

Mail intended for personnel of the Special Brigade units now at Fort Lewis, Wash., should be sent to CAGO, care of the Postmaster at Vancouver.

For those Canadian soldiers employed with the Canadian Military Division in the Far East, the address is CAGO 5001, care of the Postmaster, Vancouver.

On Holiday

MOSCOW, Dec. 2.—(AP)—American Ambassador Alan G. Kirk is scheduled to leave Monday for a two-month vacation in the United States. It will be his first visit home since 1949.

The first contract air mail system in Canada opened in 1927 between Bissett and Wadhoppe in Manitoba.

Fire Disaster To Be Probed

HALIFAX, Dec. 2.—(CP)—Col. S. S. Wright, Nova Scotia fire marshal, said today a public inquiry will be held into the cause of the downtown department store fire here Tuesday night which caused the deaths of 10 persons.

The marshal's announcement followed a preliminary investigation by himself and Fire Chief Fred MacMillan.

Tax Take On Increase

Edmonton tax collections to Nov. 30 are up \$1,267,726 over the same period of last year.

But sales of city-owned lands and rents collected by the city are both down considerably from 1949.

Tax collections during November were up \$28,000 over November of 1949, bringing the 11-month total to \$5,501,500. City Assessor and Tax Collector John MacDonald said today.

This is an increase of \$1,267,726 over 1949's 11-month total of \$4,233,774.

Land Superintendent John Paterson said 11-month sales of city-owned lands totalled \$489,961, over \$140,016 for the \$1,136,015 total at Nov. 30, 1949.

Rents dropped from \$139,874 in 1949, to \$123,555, as the city disposed of some of its wartime housing accommodation.

LONG EXPERIENCE in their line has been built up by staff of Commercial Signs Ltd. who officially opened their new plant at 109 avenue and 101 street today. Left to right is Andy Shuttleworth, co-owner and business manager; Tom Dawson, sales manager; Eddie Weir, artist; Wilf Meron, construction engineer; Pat Stocks,

co-owner and job supervisor; Mrs. M. G. Penner, bookkeeper; Dick Bechtel, commercial man; Jim Chausse, wall helper; Pete Banks, commercial work; and Mel Quick, construction helper. Staff has increased from three to ten in four years.

Commercial Signs Ltd. Mark Big Milestone In Progress

Commercial Signs Ltd., one of the foremost sign painting businesses in the city, marked a milestone in their progress today with the official opening of their new plant at 109 avenue and 101 street.

A little over four years ago, P. A. Stocks and C. A. Shuttleworth decided to pool their long experience and start a sign painting business. They hired a helper and opened a shop at 104 street and 100 avenue.

Since that time, their staff has increased to 10. They have purchased two cars and two trucks and have constructed their new building.

MANY REASONS

There are many reasons for the success of Commercial Signs. Perhaps the main one is the long experience of the members of the firm.

Pat Stocks has been in the

business for over 26 years and Andy Shuttleworth for 24 years. All of their employees are well experienced in their line. Total years of experience would amount to well over 70.

The knowledge acquired by the men in this length of time could produce nothing but the best in sign work, they believe.

QUALITY

Other important reasons for their success are the versatility and quality in their work.

Nothing is too big or too small for Commercial Signs and the quality of their work is unsurpassed.

Experience, Quality and Service is the motto of the firm. The wide scope of jobs handled by Commercial Signs ranges from painting tiny initials on cars to letters from 10 to 15 feet high on elevators and like structures. They construct huge billboards

and tiny neon signs; overhanging signs and gold leaf lettering on office doors are also their specialty.

NOTABLE JOBS

Some of Commercial Signs' biggest and most notable jobs are the Howards and Nuttall-Lambie companies signs, signs on D. G. Latta building, Tivoli theatre and the March Pastory billboard. They are at present working on the sign at the BA refinery, which will be one of the biggest single jobs in Edmonton.

Signs made by Commercial are built from the ground up. They make a sketch of the proposed building and suggest types of signs. The owner approves of a sign and construction begins.

BEST MATERIALS

Nothing but the best material goes into a Commercial sign. All big roof jobs have steel under-structures and special weather-conditions.

Assistant paints are used on all outdoor signs.

Commercial maintains all of their signs and keeps them in excellent

ELECTRICAL WORK

repairs. A year's guarantee is put on all signs, no matter what size or type.

The staff at Commercial Signs are all specialists in their lines.

Co-owner Pat Stocks does all the outside wall work on large buildings. His assistant is H. J. (Jim) Chausse.

Andy Shuttleworth, who has had experience in all fields of sign painting, handles the business end and acts as general supervisor.

STAFF ARTIST

A. R. (Arnie) Weir is the artist of the outfit. His wide experience together with modern ideas produce some very beautiful signs.

P. K. (Pete) Banks, and his helper R. (Dick) Bechtel, handle all the inside work. They do the truck and car lettering and general commercial work for the business.

Construction engineer is G. W. (Will) Meron. Assisted by Mel Quick, he sets up and maintains all the signs. With the fleet of cars and trucks operated by Commercial, quick and accurate service in this and all lines is assured.

Handling the sales end of the business is T. D. (Tom) Dawson, a man of wide experience in the sales field.

Mrs. M. G. Penner is the experienced bookkeeper and general accountant of the business.

Commercial handles country work, specializing in elevator signs and huge roadside billboards.

BASHAW, Dec. 2—Curling Club held their general meeting in the school Tuesday evening to plan the opening of the Curling season.

Arrangements were made to accept entries of the rink and they should be turned in by Saturday to the secretary M. Reamer.

They decided to secure silver trophies and miniatures to be awarded to the winners of the round robin events and the bonspiel.

The Magna Carta, England's great charter of civil liberties, guaranteed privileges of nobility, church free from secular interference, and right of freedom to legal protection.

LA CRISTIANITÀ

MEMORIAL DAY LECTURE, Saturday, Dec. 2, 1950

The institution but if they do, they will be jailed at Fort Shackleton or Leclercq's jail when they are apprehended.

The Bowden institution will be in operation by next fall, and, at least, will accommodate about 100 inmates.

The idea is to segregate youthful and first offenders from the older and more hardened criminals, associate with an inmate, teach them a trade and generally rehabilitate them. The institution will be headed by Mr. Maynard Reid, inmates of the institution will be screened at Fort Simpson before being sent to Bowden.

The attorney-general said he was not sure whether the government would appoint a head of the institution.

Mr. Kavanagh, a graduate of the University of Toronto school of social work and came here in September as assistant executive director of the John Howard Society of Alberta.

Work on construction of the Bowden institution has begun and it is likely that the institution will be completed by the \$125,000 voted last fall.

It will be requested at the next legislative assembly to complete the building.

Mr. Maynard said a considerable number of inmates of the institution will be sent to obtain equipment for the institution. Selected groups of inmates of Fort Simpson jail are now being employed as unskilled labor in the construction

WANTED ONE COMMISSIONER OF FOOTBALL: It is inevitable in a country where the citizens take their football very seriously, that the discussions of the sport should continue beyond the stipulated limits of the football season.

It is inevitable, too, that when the Grey Cup has become an annual event occasioning fanatical national interest, the championship game sometimes must be attended by unsavory rumors and must be followed by a whispering campaign.

There was a suspicion, voiced by some hard-eyed observers, that last Saturday's game between Toronto Argonauts and Winnipeg Blue Bombers hadn't conformed entirely with the regulations of the Legion of Deceit.

As often as not, such rumors start with some crumb who has lost \$10 and who, ordinarily, wouldn't pay 10 cents to see the Statue of Liberty perform a circus trapeze.

Such suspicion, based on the fact that the Winnipeg didn't live up to their advance notice in the blunders, disgraced observers couldn't understand why the Blue Bombers, who had been hailed generally as the best football team ever to come out of the West, looked like a grade "D" intermediate outfit when they were exposed to public gaze in University of Toronto Stadium.

Your correspondent, along with other eastern Canada writers who watched the Bombers in their home campaign, must confess to having nursed the legend of Winnipeg invincibility. We deluded ourselves and we deluded the football public. For one thing, we overlooked the fact that the Winnipeg team, before coming east, lost that one intangible asset known as "team spirit." We expected the Winnipeg to play as champions and they played like duffers.

They played so badly that we felt constrained to leave at halftime but our size 10 feet became entangled hopelessly in the blankets and thermos bottles.

Academically, we were interested in the post-game analysis of the considerable scope of our gambling acquaintances, we found that about \$100,000 had changed hands on the outcome of the game. We say \$100,000, because we have no method of estimating the additional thousands of small private wagers.

All of us have heard this type of rumor before. Joe Blow, the famous table from Westborough, State, has been seen being carried into the lobby of the Midland Hotel by two hordes of men, one in the early morning and the other in the early morning of the game.

On investigation, it usually transpires that the two hordes were his sons from Sheboygan.

They were carrying him only because he wanted to go along with the sea and — besides — he had spent the evening teaching them how to play cards.

In our own circumlocutions, we were driving at the fact that at a high time that Canadian football was governed by a well-paid commissioner, with powers as those which are vested in Bert Bell, Commissioner of the U.S. professional league, or in the Canadian, Commissioner of Baseball.

The Canadian Rugby Union, which currently governs the sport in this country, is composed of very charming fellows who are the soul of politeness.

Unfortunately, they are unpaid executives who are dependent on other business interests and they have demonstrated, unequivocally that Canadian rugby football has outgrown them.

Migawd! How could you expect those fellows to handle an impudent gambling cartel if they couldn't even handle a \$10,000 appropriation for a tarpaulin to cover the field on which the Grey Cup final would be played?

The fact remains that, when more than \$100,000 was wagered on the outcome of a single sporting event, it is necessary that the sport question should be supervised strictly.

It would be expedient, for instance, that individual players whose reputations might be assailed by rumors of gambling practices, might have access to a

WELL, CHEETAH, SO OUR 'M'SIEU GROS' TURNS OUT TO BE A HANDSOME WOMAN NAMED 'HERSELF' MULDOON!

WHILE YOU GAZE AT THE MOON, CANYON, TRY TO FIGURE WHY 'HERSELF' HAD US KEEDNAPPED—YET SHE HAS NOT KEELLED US!

PERHAPS I SHOULD RELIEVE THE MAJOR OF THE CHORE OF THINKING IT OUT!

...AH! 'HERSELF'—IN PERSON!

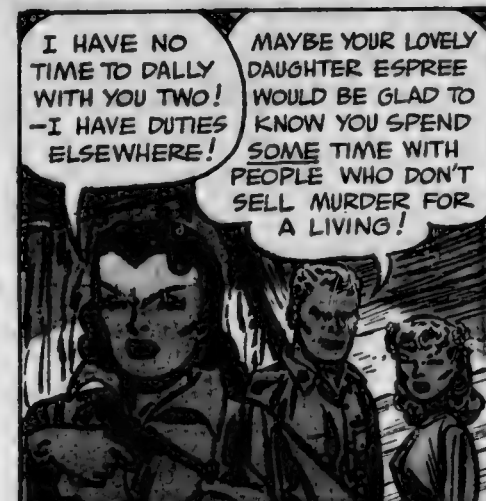

YOU TWO ARE ALIVE BECAUSE I WILL NEED YOU AS BARGAINING PAWNS IF THE FRENCH CATCH UP WITH ME!

DON'T YOU RATE US A LITTLE HIGH?

I AM A BUSINESS WOMAN—I KNOW THE PRICE SCALE IN THESE MATTERS!

SINCE WE SEEM TO BE IN FOR A LONG WAIT, WHY CAN'T WE RELAX AND PLAY SOME THREE-HANDED SOMETHING?

I HAVE NO TIME TO DALLY WITH YOU TWO!—I HAVE DUTIES ELSEWHERE!

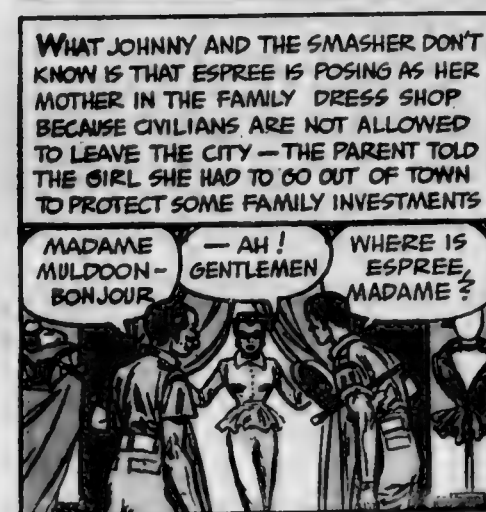

MAYBE YOUR LOVELY DAUGHTER ESPREE WOULD BE GLAD TO KNOW YOU SPEND SOME TIME WITH PEOPLE WHO DON'T SELL MURDER FOR A LIVING!

MEANWHILE

JOHN SALT, THE POLICE ARE YAKKA DE YAK ON THE DISAPPEARANCE OF OUR FRIENDS, BUT WE CANNOT SIT BY!

ESPREE AND HER MOTHER KNOW THIS AREA! LET'S GO SEE IF THEY CAN HELP US!

WHAT JOHNNY AND THE SMASHER DON'T KNOW IS THAT ESPREE IS POSING AS HER MOTHER IN THE FAMILY DRESS SHOP BECAUSE CIVILIANS ARE NOT ALLOWED TO LEAVE THE CITY—THE PARENT TOLD THE GIRL SHE HAD TO GO OUT OF TOWN TO PROTECT SOME FAMILY INVESTMENTS

MADAME MULDOON—BONJOUR

—AH! GENTLEMEN

WHERE IS ESPREE, MADAME?

...SHE IS—AH—TEACHING AT THE GIRLS' SCHOOL!

SINCE YOUR SHEILA ISN'T HERE, JOHN, WHY DON'T YOU PEEL OFF AND FLY AWAY! MAMA AND THE SMASHER CAN HOLD HANDS WHILE WE TALK IT OVER!

DICK TRACY

OH, FINE, FINE!
I FEEL FINE.

CRIMESTOPPERS TEXTBOOK

IN MANY HIT-AND-RUN CASES, THE ACTUAL TIRE PATTERN HAS BEEN LEFT ON THE SKIN OF THE VICTIM. THIS CAN BE PHOTOGRAPHED FOR IDENTIFICATION.

DON'T TAKE TH' LITTLE TYKE AWAY. JIST LET 'ER SET THERE AND SING.

OH IT'S A GREAT DAY FOR SHININ' YER SHOES

SPARKLE'S PLAYING TURNED THE TIDE! IN A MEDICAL SENSE, THE EFFECT OF HER MUSIC COULD BE LIKENED TO SHOCK TREATMENT.

DID I JUMP?

WHAT DID YOU THINK, B. O. PLENTY, WHEN YOU FIRST HEARD SPARKLE SINGING?

FUST I THOUGHT I'D PASSED THROUGH THE PEARLY GATES AND GONE TO MY REWARD.

THEN SUDDEN-LIKE I SAYS TO MYSELF, "WHY CONFOUND IT, THAT INFERNAL RACKET'D WAKE THE DEAD!"

YOU HAD BEEN UNCONSCIOUS ALMOST FOURTEEN DAYS.

NO WONDER MY DAD-BURNED WATCH WAS RUN DOWN! WIND 'ER UP FER ME, SPARKLE.

THIS IS A GREAT DAY! B.O. IS RECOVERING, SPARKLE IS SAFE AND SOUND, AND T.V. WIGGLES IS GONE FOREVER!

AND DON'T FORGET MUGG! HE'S RECOVERED FROM THAT BULLET WOUND T.V. WIGGLES GAVE HIM.

DON'T WORRY, JUNIOR, WE COULD NEVER FORGET MUGG! HE SAVED SPARKLE'S LIFE - AND MINE, TOO.

INCIDENTALLY, DICK, IF WE EXPECT TO HAVE OUR NEW HOUSE READY FOR THAT BIG CHRISTMAS HOUSE-WARMING PARTY, WE'D BETTER GET GOING.

HALF HOUR LATER—

BUT YOU CAN'T HANG DRAPES WHILE WE'RE STILL PAINTING.

BUT WE HAVEN'T MUCH TIME.

CHRISTMAS IS 3 WEEKS AWAY, TESS! THE DECORATORS ARE ALMOST THROUGH! WHAT ARE YOU WORRYING ABOUT?

DECORATORS ARE NEVER THROUGH TILL THEY'RE OUT!

I JUST WANTED TO SEE HOW THIS FABRIC WOULD LOOK AGAINST THE PAPRIKA-COLORED WALL, THAT'S ALL!

YOU'VE CHANGED THE COLOR SCHEME IN HERE THREE TIMES. NOW, LISTEN—

SEE WHAT I MEAN?

OUT OUR WAY

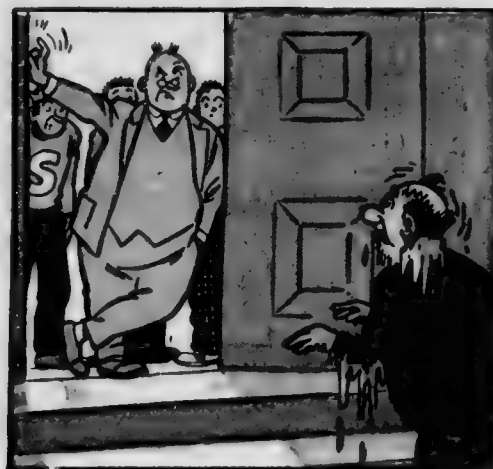

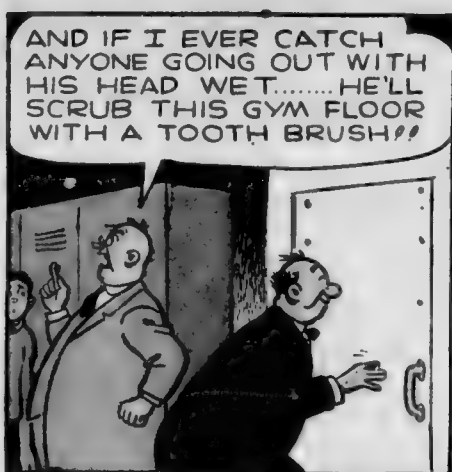

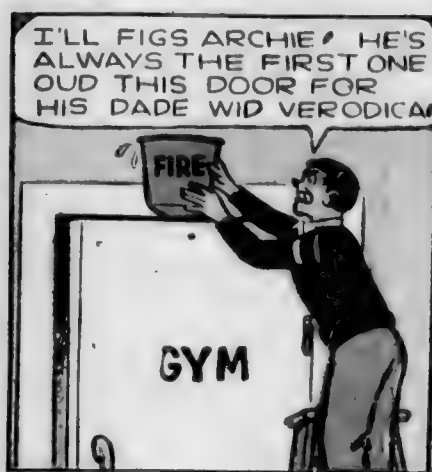

The Willets

By Williams

Archie

by BOB MONTANA

Synopsis: A ROMANTIC YOUNG TROUBADOUR ASKS PRINCE VALIANT, RUFUS, EGIL AND ARF FOR HELP. SOME RASCAL HAS BEATEN HIM AND STOLEN HIS TRUE LOVE--A MAID WITH FLAMING HAIR AND EYES OF BLUE. "YOU FOOLISH CLOWNS," HE SAYS, "MY MAIDEN FAIR IS NOT AMONG THESE WENCHES YOU HAVE BROUGHT ME!"

THEN COMES RUFUS, RIDING HARD. HE HAS ANOTHER REDHEAD AND, CLOSE BEHIND HIM, AN ANGRY CROWD.

THE TROUBADOUR LEAPS TO HIS FEET AND CRIES: "MY SWEET, MY LITTLE PARTRIDGE, MY ADELE!"

HER ANSWER IS CONVINCING AND FINAL. "YOU CATERWAULING SIMPLETON!" SHE HISSES. "FOR THE LAST TIME--LEAVE ME ALONE.....!"

"WE HAVE GREATLY OVERDONE THIS BUSINESS OF STEALING REDHEADS," SAYS VAL UNCOMFORTABLY. "THERE WILL BE FATHERS, BROTHERS, LOVERS AND EVEN HUSBANDS IN THE APPROACHING CROWD SHALL WE GO ELSEWHERE?"

SO ELSEWHERE THEY GO, AT A GALLOP. THEY NEVER LEARN WHAT BECOMES OF THE TROUBADOUR.

THEY RIDE FAR AND COME AT DUSK TO A FAIR CASTLE THAT PROMISES REST AND REFRESHMENT.

NEXT WEEK--The Dubious Place.

FIRESIDE DREAMERS PLAN YULE GIFTS

SANTA HAS PROMISED special treats for good little boys and good little girls this Christmas of 1939. And assisting the jolly, rotund man are girls of Beta Sigma Phi Business Girls' Sorority. Mrs. J. C. Barford, left, and Mary Ford put finishing touches to Christmas Gift Bazaar articles.

Beta Sigma Phi Christmas Girls Help Santa Claus

Santa Claus has signed up every Beta Sigma Phi sorority member for help during Christmas season.

Girls have answered his call by preparing articles for a gala bazaar to be held Dec. 9 at the IOOF hall from 2 to 6 p.m.

Proceeds of the pre-Christmas affair will be used to further specially planned Yuletide charitable work.

SORORITY IN CHRISTMAS SPIRIT

TOYS, DOLLS, NOVELTIES add clutter to Beta Sigma Phi's bright third-floor club-room as members Doris Walker, left and Anne Mott hastily put last-minute touches to bazaar articles for Dec. 9. Affair will take place at IOOF Hall.

Homemaker Xmas Gifts All Handmade

Gaily colored place mats, bright luncheon cloths, elegant evening bags, practical pretties for house and homemaker will be featured at the Beta Sigma Phi pre-Christmas bazaar.

When affair is presented for public Dec. 9 hand-knit socks, aprons, dollies, oven-mitts, children's wear and even linens for the new-born babies will be featured.

Convener is Mrs. Weldon Fitzsimmons. Assisting her are Grace Harford, Doris Walker, Anne Mott, Gwen Gleese, Dorothy Soorie, Irene Smith, Jessie Templeman.

Novelty Toys Fashioned For Dec. 9 Bazaar

Fuzzy-faced teddy bears, long-eared rabbits, saucy-smiled dollies, dainty miniature wardrobes for the "little people" are painstakingly fashioned by Beta Sigma Phi members.

And it's all for a very special reason.

They've promised Father Christmas to help him with a bazaar of toys, novelties 'n' extras for gift selection.

Three chapters of the sorority, Gamma, Xi and Xi Alpha have prepared reams of attractive articles for a Dec. 9 sale.

Affair will take place at the IOOF hall, 103 street, when guests will be welcomed from 2 to 6 p.m.

SILVERY TINSEL SPARKLES LIKE STARS

IMAGINATION, lots of sparkly baubles and silvery tinsel will add up to bright, attractive decorations for your home and hearth come the merry Yuletide. Sorority member Mrs. J. P. Shortreed proves her point by adding bits of this 'n' that to a dry old tree twigs.

GOOD CHRISTMAS FAIRIES HELP SANTA WITH GIFTS FOR ALL

SENTIMENTAL SEASON of gift exchange makes Santa Claus and his host of helpers a busy lot indeed. Beta Sigma Phi members, Mrs. Weldon Fitzsimmons, left, and Mrs. D. Smith, take their turn at Father Christmas' workshop routine to turn out pretty, curly-headed dollies, stuffed animal toys, tiny doll cradles, knitting bags, tea-caddies and a host of novelty gifts for young and old. Articles will be featured in Dec. 9 bazaar.

SHOPPING GUIDE

Home-Made Pretties Best for Decoration

By BEA THURTY

Once you busy homemaker gets her make, bake 'n' buy lists under control... you might take the matter of Christmas decorations into your own hands.

Each year, women are realizing more and more success with hand-made centrepieces, mantel-decorations and Christmas-tree pretties.

For the girls who'll take a whack at it anyway there's a new metallic material about four inches wide that offers odies of scope for your Yuletide imaginations.

Tiny plastic sugar-plum trees, laced with tinsel and star-studded with bright baubles would make a thoughtful bit of cheer for bed-ridden friend.

Sugar-plum trees sell at 96c each and may be prettied with Christmas garlands quite inexpensively... and of course you've thought of their possibilities as table centrepieces.

A new synthetic snow is sparkly, not half so messy as efforts of other years. It's a plastic product called styrofoam and is feathery light, doesn't powder away.

Huge candy-striped canes of the same styrofoam are light and bright for tree decoration... but they fall when it comes time to have a lick of the "confection."

Colored glass berries have crossed the seas from occupied Japan to make bright 'n' beautiful houses, trees, crosses, Santas, angels and other symbols of the festive season.

Remember the Christmas corsages I mentioned just t'other day... did I tell you about the 59c efforts that boasted sparkly, jingling bells, tiny pine and silver in a nest of green cedar and pine cones.

That was just a passing thought...

We should take a stand on this matter of tree stands. Many of the metal variety are not too trustworthy for large trees... and all are far too costly.

There's one that's safe enough and purty enough with rows of colored lights circling the bottom... but it costs a good part of a five dollar bill.

Things get worse 'n' worse...

DOROTHY DIX SAYS

Every Mother Must Give Her Personal Attention to Baby

By Myrtle Meyer Eldred

DEAR MISS DIX: My wife and I have been having a controversy over whether or not she should go to work outside of the home.

We have a 7-month-old baby when we both love dearly. We want to make our child's life a happy one, one on which she can look back without feeling that she has been cheated here and there.

The wife says: I feel as if I am wasting my time doing housework. My husband says: I feel as if I am wasting my time doing housework.

The husband says: I feel that if we have someone to care for the baby that she will not look so much like a child for the times that all children from respect of their mothers. Yet I feel that if I refuse to let her go and do the work she loves that I would be as selfish as she would be if she would ask me to stay at home and do the housework.

HUSBAND AND WIFE. ANSWER: As I have remarked many times, being a woman is the most complicated job on earth and every day it puts more and more pressure on a woman's shoulders.

At all times, however, work and business life and each one unfits her for the other and makes her dissatisfied with the other.

I am firmly convinced that no woman is right to have a baby unless she is going to give it her personal attention.

The taxidermies temples in Atlanta are believed to date from 10,000 B.C.

The husband says: I feel that if we have someone to care for the baby that she will not look so much like a child for the times that all children from respect of their mothers. Yet I feel that if I refuse to let her go and do the work she loves that I would be as selfish as she would be if she would ask me to stay at home and do the housework.

YOUR FINGERS may tire quickly massaging the scalp in this manner. Vigorous brushing will do as a substitute if you do it right.

WHY GROW OLD

Not So Much How Often As How You Wash Hair

By Josephine Lowman

Here are a couple of usual misconceptions about hair.

Many women feel that it is bad for the hair to shampoo it too often. The basis of hair beauty lies in cleanliness and stimulation. If you use a harsh soap and dry your hair under a drier, perhaps a daily shampoo would tend to dry out the natural oils in the scalp. How often you shampoo your hair is an individual matter.

If your work or your play takes you outdoors a great deal in the wind and dust and dirt, then your hair will naturally require more frequent shampooing. For the average woman with very oily hair two times a week is about right. On the other hand, if your scalp and hair are very dry, once every ten days is advisable.

Cream shampoos are very good for the woman with coarse or dry hair. If your shampoos are very fine and soft you may find that this leaves them even softer and more unmanageable.

If you would like to change your hairdo and want help in styling it send a stamped, self-addressed envelope with your request for leaflet No. 31, "Frattling Your Face Attractively." Address Josephine Lowman in care of this newspaper.

A new completely wet-proof hammock is equally at home in the nursery, the car, or the balcony. Complete with quilted plastic lining and waterproofed... it folds into a package for travelling. Unfolded it fits in a rolling frame or lifted out the wheels, it can be used as a car crib. A plastic cover fits it for outdoor use.

Send twenty-five cents in coin for this pattern (refund cannot be accepted) to Edmonton Bulletin, 1000 St. W., Household Arts Dept., Toronto, 1A, Ont.

Print plain name, address, pattern number.

wipe clean with a damp cloth! venetian blinds of new *Flexalvm.* plastic tape and slats

That brand new look really lasts when your blinds are made of Flexalvm. A damp cloth wipes away dirt, grime, grease, from tape and slats. Flexalvm tape won't shrink or stretch. And Flexalvm slats may back into shape though you bend or abuse them. Their baked-on finish won't chip, crack, peel or wear. 120 window color combinations. Free estimate! Easy term!

SERVING EDMONTON AND DISTRICT FOR OVER FORTY YEARS

Blindcraft To Be Featured In Pre-Christmas Sale Soon

Feather soft, exquisite baby clothes perfect in every detail, lie wrapped in tissue paper. Stacked baskets of innumerable shapes and sizes rub shoulders with boxes of hand-made leather goods.

These are Blindcraft products and will be offered for sale Thursday and Friday on second floor of Hudson Bay Company's store.

Sale will be under auspices of Edmonton Women's Auxiliary to Canadian National Institute for the Blind, tables will be in care of members of Council of Jewish Women under co-operation of Mrs. Ted Cristall.

MADE BY BLIND

All articles have been manufactured by blind persons either in their homes or at CNIB workshop in Jasper Avenue. Knitting and leather work are among useful subjects taught by specially trained sightless teachers.

Having learned these skills blind Edmontonians can spend pleasant and profitable hours in their homes.

Sale of their finished articles insured continued occupation of this kind.

MORE ORGANIZATION

CNIB workshop is still not fully organized and is operating only on a small scale, but it is providing occupational work to a few sightless people who are producing a limited line of attractive articles.

Forfeiting Women's Auxiliary sale will provide first opportunity in many years for public to inspect and purchase Blindcraft articles.

"SO THAT is how they're made." Watching Joseph Gray's nimble fingers making rubber doormat cleared up point for Mrs. John Syde at CNIB yesterday. Sturdy hard-wearing mats will be among articles at sale arranged by Edmonton Women's Auxiliary to CNIB.

WAR CONDITIONS in Far East interrupt flow of goods necessary to make type of baskets on which Miss Edith Podersky is working. Mrs. Ted Cristall is convening sale of blindcraft sponsored by Council of Jewish Women at Hudson's Bay Company Thursday and Friday.

Social and Personal

CWL Tea Is Tomorrow

Convenor Mrs. W. E. Broderick will receive with president Miss Mary Gardner tomorrow when Margaret Duggan Sub-division, C.W.L. entertains at tea.

Affair will take place at Knights of Columbus Club from 3 to 6 p.m.

Assisting with arrangements have been Misses Blanche Bernier, Miss Ann Fitzgerald, Mrs. W. K. Fox, Mrs. A. P. Goughlin, Miss Thelma Murray, Miss Catherine McGrath, Miss Mary Paradis, Mrs. J. H. Toupin, Mrs. J. R. Wilson, Mrs. Stan Moher, Miss Helen Maher, Mrs. A. L. Murray.

Piano music background will be provided by Miss Ruth Lavallee and Mrs. M. K. Dorman.

Eskimo Ski Club Party Held Last Night

Ski-Tow Specialists had a barrel of fun last night when Eskimo Ski Club presented their annual fall party at the Club Anton.

Dance, arranged by Donald Hamly and his committee, started at 9 p.m.

Season-opening party starts a run of fun for club members and friends this winter.

Les Bonnes Amies Christmas Tea Sunday

Home of Mrs. James Hutton, 10221 100 Avenue, will be opened Sunday afternoon when Les Bonnes Amies club holds its annual Christmas tea.

Proceeds will provide a merry Christmas for club charities. Miss Suzanne Barbeau, social convenor and Miss Vivienne Parent, president, will receive guests between 3 and 6 o'clock.

Tea is convened by Miss Barbeau. Invited to partake are Mrs. A. Crovelli, Mrs. R. D. Danc, Mrs. P. Gaudin, Mrs. J. K. Kowalski, Mrs. D. M. O'Brien, Miss Patty J. Gaudin, Mrs. J. P. Muecke, Mrs. P. E. Poirier, Mrs. James Hutton, Mrs. J. J. Barbeau, Mrs. L. LeClair, and Mrs. Joseph Lalonde.

DAINTY little aprons and soft winter woolens were features of Wednesday afternoon bazaar and tea yesterday afternoon.

Guests were received by Mrs. Thomas O. Hunt Co-convenors were Mrs. R. C. McDonald and Mrs. A. Williams.

FAREWELL PARTY was held recently at home of Mrs. George Strange where Counties of Brandon Chapter 11222 entertained Mrs. T. G. Derrington.

Mrs. Derrington former chapter president is leaving Edmonton to make her home in Vancouver. On behalf of members Mrs. P. P. Griffin presented gift to guest of honor.

BACK FROM THE PACIFIC Coast is Mrs. Anous Douglas after a two-month holiday.

While visiting in Vancouver, Mrs. Douglas was guest of her mother Mrs. Clara E. Cooper.

She took time out to enjoy a few days on Vancouver island before leaving her headquarters while there.

Films 'n Fun Slated Monday For Oldsters

Hostesses selected from among members of the Ladies' Auxiliary of the Y.C.T. are planning special entertainment for Alberta Avenue Friendship club Monday evening.

Films and a social evening have been planned for the oldsters. Mrs. G. Rice, Mrs. D. Taylor and Mrs. H. Speckler will provide extra entertainment.

Evening's hostesses are Mrs. T. Davidson, Mrs. F. Walden, Mrs. V. Bailey, Mrs. D. Springham, Mrs. S. Curry, Mrs. W. Heberington, Mrs. H. Steekley.

Health Crusade Starts for Mothers

TOBACCO - (C) - The Canadian Child Health Association announced today it is beginning a nationwide crusade to spread medical information to mothers and expectant mothers.

E. Frank Trimble, general director of the association, told a press conference yesterday that "we cannot expect the federal and provincial departments of health to do this job."

International Color To Spark Party For Unity Council

Carols and music of many lands will open International Yuletide party to be held in Social Credit hall Tuesday at 8:30 p.m.

Sponsored by Council for Canadian Unity, Mrs. J. Hudyma and Mrs. D. Baragovsky are conveners.

Others in charge of arrangements are Mrs. H. Lingas, Mrs. Roy Shaw, Mrs. Grace Knight, Mrs. S. Carter and Mrs. Rita Rowan.

Program of music will include songs and duets from Youth Chorus directed by Miss Anna Buckles. Others taking part in concert are Tony and Dorothy Bismonte, Miss Diane Kelsay, M. Kunz with Mr. Karaynski as accompanist, choir girls from Shiloh Baptist church, Miss Crystal MacDonald, Richard Jones and William Dorman. Mrs. S. Carter will play accompaniment.

Games and refreshments will round off the evening. Frederick Bendall will be master of ceremonies.

End Bad Cough Quickly, at One-Fourth The Cost

Thousands of housewives have found that, by mixing their own cough syrup, they get a dependable, effective medicine. They use a recipe at only one-fourth the total cost of ready-made medicine, but which really breaks up a stubborn cough in a hurry.

From any drugstore get 2 1/2 ounces of Pinex. Pour this into a 16 ounce bottle and fill up with granulated sugar syrup to make 16 ounces. The syrup is easily made with 2 cups sugar and 1 cup water, stirred until dissolved. No cooking needed. Or use 1/2 cup of liquid honey, stirred in. It is as trouble-free as all other cough syrups. Keeps perfectly tastes fine.

Pinex is a special compound of pure pineapples, an essential oil, and is well known for its soothing effect on the throat. It is not a cough suppressant if it does not please you it is not for you.

ONE OF EDMONTON'S most modern beverage rooms is this comfortable lounge in new wing of Royal Hotel, 10220-96 street. Lounge, which will seat 275 men, has just been completed and will be open to public Monday morning.

Royal Hotel Adds New Wing, Increases Accommodations

The Royal Hotel has a new look today. A new wing, containing two fully modern beverage rooms, coffee shop and small banquet room, will be open to the public Monday.

BEVERAGE ROOMS

Highlighting the colorful men's beverage room is a polished black Arborite and lighted glass brick bar. The room, which is 40 by 80 feet, will accommodate 275 persons. Chairs are covered in tan, red, blue and green leatherette, while the island linoleum is mottled cream and red.

The ladies' lounge room which has the same fittings as the men's will seat 45 persons. Both rooms are finished in birch paneling, with acoustic ceiling and fluorescent lighting. There will be ten waiters in attendance.

Two very special features are a modern glass-washing and sterilizing unit, and a ventilating system which changes the air every six minutes.

CHARLES CHAUSSE
... manager

The banquet room, which is also on the lower floor will handle a party of 100. Both the banquet room and coffee shop are serviced by a spacious and fully modern kitchen.

New Zealand Aluminum Plan Delayed

WELLINGTON, N.Z., — (CP) — Proposals for Canadian interests to inaugurate a large aluminum industry in New Zealand appear to have been side-tracked for the time being. Hon. C. M. Bowden, minister of industries and commerce, says however that the project "will not be lost sight of."

Representatives of a large Canadian aluminum syndicate made exploratory surveys in Otago in 1947, following a visit to Canada by New Zealand's former finance minister Walter Nash. The site generally favored is Lake Manapouri, a high altitude lake with a vast potential of untapped hydro power.

Bullet-Raked Field Raises Big Wheat Crop

LETHBRIDGE, ALTA. (RUP)—A grain field near here was expected to be worth \$100,000 this year after being tilted literally by bombs and plowshares.

The 32,000-acre field of well-developed wheat, believed to be the largest of its kind in the Commonwealth was a practice bombing range during World War II.

The field was seeded this year by 34 white men who leased it from blood Indians on whose reserve it is located. The grain-growers estimated it would yield 25 bushels to the acre for a total crop of 800,000 bushels worth \$1,000,000.

Farmers who broke the land for this year's crop uncovered hundreds of old bomb cartridges, pieces of shattered targets, and machinegun bullets that tore up the earth during the war years. They said they found no live ammunition.

The Indians will get a fifth of

the yield of the field and a third of the produce for the remaining eight years of the white men's lease along with varying cash payments per acre for use of the land.

Rail Workers Brief Drafted

A brief concerning railway workers' needs in Alberta will be presented to the Alberta government in the near future.

The proposals have come out of a meeting of dominion and provincial legislators for the rail union which ended yesterday afternoon at the Macdonald. Five unions were represented at the week-long conference.

reference, the Brotherhood of Locomotive Firemen and Engineers, Brotherhood of Locomotive Engineers, Brotherhood of Railway Trainmen, Order of Railway Telegraphers and Maintenance of Way Employees.

The Mustopolis River has an average width of more than one-half mile for its entire length of more than 1,000 miles.

The first airplane flight by Wilbur and Orville Wright in 1903 covered just 394 yards.

MODERN NEW Alberta College W. T. Henry hall extension which was to be completed at end of October will not be put into operation until summer of 1951 according to officials. Two-story building, constructed at cost of approximately \$200,000 will house dining room

in basement and gymnasium and auditorium on first and second floors. Auditorium will have seating capacity of between 1,200 and 1,500 persons when completed. Alberta College is on Macdonald Drive.

New Designs In Furniture Possess Beauty, Strength

How to move your chestfield higher off the floor and arms are by canoe sounds like something they might be learning in Mars. Actually it's being done today in Canada with all-Canadian designed and made furniture.

The secret of the trick? The lightness and durability of the material. For several years now designers here have been working on the problem of making furniture lighter in weight and still retaining good lines, comfort, strength and proportion.

It has been plenty of imagination, initiative and patience but 1950 brings us into the new era of furniture in which all Canadians can have pride.

Let's look at that chestfield which has been transported by plane to the Yukon then on to remote parts by canoe. The height of its seat and arms is one of its new worthwhile features. Seat is

with chestfields and lounge chairs has been removed.

Both chairs and chestfield are easy to move about, to group attractively without using up all the available space in the room, and the good, clean-cut design allows the new pieces to combine happily with traditional furniture in the same room.

Then turn that chair upside down and see how it's made. Well constructed, dovetailed, carefully finished of good solid Canadian hardwood, this furniture has durability as well as beauty, and comes in wide choice of fabric and real leather upholstery, in single chairs, love-seats, chestfields and sectional groups.

In a different type of chair, the open arms show another new trick, instead of the lower part of the arms being heavier, this design is the reverse, thus adding strength where needed most, yet keeping slim lines.

"We have been working on the new developments for some time, trying ideas in our factory and we finally felt we had designs that were Canadian originals, suited to the needs of Canadian homes, big and small today," explained C. A. McMurtry.

"We feel Canada is big enough now to stand on her own feet in furniture design and production, as she is doing in other things."

And all this new type of furniture has the rubber cushions, another good point, not only for comfort but for cleanliness. So, in yet another field, Canada does not now have to rely on imports. We have our own, and it fits well into today's picture.

FIX-IT FORUM

Q—How does one locate the studs in a plastered wall?—E.R.

A—Studs usually can be located by tapping the plaster lightly with a hammer. Move the hammer slowly along the surface and you will detect a progressive change in the tone as the hammer passes a stud directly over a stud. The taps produce a hollow sound over the space between the studs but when the plaster is tapped directly over a stud the tone is much sharper and of a more metallic quality.

Jewels Made From Bones

LIMA, Peru (UPI)—Maurice Benedict Flores, Peruvian archeologist, said here he has found scientific proof that Inca Indians, a pre-Inca race transmuted the bones of their ancestors into turquoise as a tribute of love and respect.

Flores said he found traces of the mineral and vegetable chemicals the Inca priests used for the transmutation, together with ancient bone half way in the process of becoming turquoise.

According to the archeologist, the transmutation had a strong religious end; aware that man's physical shell is highly perishable, the Inca took to more solid part, the bones, and turned them into lasting jewels.

The sheer bulk of the nesting materials gathered by the birds leads Dr. Frodin to believe that the construction of nests place over a period of weeks.

Unfortunately the birds are shy of engineering talent—they just don't know when to stop building. Their apartment houses eventually become so heavy from their persistent efforts that they crash to the ground and the unhappy birds must do the job all over again.

SCOTCH ALL FOR EXPORT

LONDON (CP)—Britain is importing Danish whiskey while Scotland sends the real stuff to Canada and the United States.

The Imported liquor goes primarily to Scotland, where it sells for 25s 6d (45c) a bottle.

Scottish Scotch, slightly baffled by this state of affairs, constantly remind that even Danish whiskey is better than none at all.

Wall Coverings Of Fabric Urged

Recommended As Quick, Cheap Way of Re-Surfacing Walls

By Bob Scharff

Protective fabric wall coverings have a definite place in the field of wall decoration. They provide a quick, economical, crack-free method for resurfacing old walls.

Being made of coated cloth, not paper, they reinforce plaster walls, thereby preventing new cracks. They hide and strengthen old ones and provide first-class decoration with either wallpaper-like pattern effects or paint-like solid color treatments.

Despite these advantages, many a homeowner refuses to attempt hanging this wall covering simply because he thinks there is some difficult trick to it.

Actually, if the proper procedure is followed, it is no harder to hang than ordinary wallpaper, and practically the same tools are used.

TO OLD SURFACES

Before applying the wall fabric to old plaster surfaces, all wallpaper or caliche should be removed. Plaster surfaces should be washed down with a strong soda solution, followed with a water-vinegar rinse.

Where the surface still remains glossy, dull it by rubbing with steel wool sandpaper.

For new plaster work, the plaster should be dried completely and free from all active lime burns. Sandpaper smooth and apply a thin coat of glue.

Over wall boards, apply sprackle or Swedish putty to all joints and nail holes and, when dry, sand smooth. Then brush on a slant coat made from four parts varnish and one part turpentine.

CHECK NUMBER

Examine each roll before actually starting to hang the covering, checking the run number and matching up the rolls.

Cut each roll into strips of the required length (slightly longer than the space they are required to fill) using a sharp knife and a straight-edge. If using a plain color, reverse every other strip.

Apply wheat paste (mixed as directed on the package) on the back of each strip, brushing thoroughly to form a smooth, evenly-distributed coat. Never pile the paste on as this may cause air pockets to develop later under the fabric.

Then fold the pasted sides together and neatly trim the waste away, being sure to sharpen the knife or trimmer blade frequently. Plain patterns need only be trimmed along lines.
